

Immersion Programme

COURSE OVERVIEW

Our syllabus for Immersion programme covers five themes – well-being, arts, maths, music and daily conversations. We believe that cultivating our students' interest in a different culture, and developing their skills through a foreign language are the keys to gaining proficiency. We also take reference from that held by mainstream English-Chinese bilingual nurseries/receptions in China. Each class includes three 30-minute sessions with 15 minutes break in between. They add up to 2 hours of weekly learning time, and home immersion materials are also provided as a follow-up on each class.

- We are a group of "big" children between 3-5yrs old
- We love to play and to learn new sounds
- We sing, dance and have fun together. Our teachers speak a secret language, but I can understand!

"We believe learning and playing should be intertwined at the early age. Through various playing activities, our children learn while they have good fun."

KNOWLEDGE & SKILLS TO DEVELOP

Academic achievement: all children can succeed

Proficient bilingualism from childhood to adulthood

Cross-cultural and global competence

Critical consciousness for equitable access and social justice

Creative and innovative educational design and implementation of language immersion education

ThinkChinese (醒客国际) has taught the Chinese language on the Island for 6 years. Established in early 2017, our services also include consultancy, translation, WeChat marketing and travel to China. Our mission is to bridge the cultures between Jersey and China in the education and business worlds.

COURSES

- YCT
- HSK
- GCSE
- A Level
- Business Chinese
- Immersion Programme

WHY THINKCHINESE

- Fully qualified teachers with experience working in the UK and China
- Insights into both languages and cultures
- Bespoke lessons to suit each group and individual
- Empower students to learn and experience beyond the classroom
